

## North American Division Office of Education Special Pricing

### Interwrite Products

Interwrite Learning produces two of the best interactive products on the market today. We are proud to offer you a NAD negotiated contract on the 77" interactive white board and on the Interwrite Pad. This is a one-time offer. Schools are limited to one board per school at this price or multiple pads.

#### Interwrite Board is ideal for:

- Those teachers who want to teach from the front of the room and want students to focus on you and the content in front of them.
- Sending students to the front of the room to solve a problem at the board.
- Permanently mounting the Board to the wall and using a ceiling mount projector. Other options include using our stand that has wheels and moving the Board from classroom to classroom.

#### Interwrite Pad is ideal for:

- Teachers who want the freedom to move about the classroom and engage students while they are teaching
- Enabling students to participate from their seats. Students can work in teams with the Interwrite Pad or pass the Pad around the classroom to encourage everyone to take turns.
- Special needs classrooms where students are not readily able to come to the Board to answer questions or participate in the lesson.
- Room configurations that are either too large or too obscure to effectively use an Interwrite Board.
- Schools with budgetary constraints. The Interwrite Pad can be a lower cost solution than installing an interactive whiteboard.

# 77" Interwrite Board

## Digitizing Technology

The Interwrite Board utilizes patented electromagnetic digitizing technology which delivers high resolution (1,000 lines per inch), providing superior performance for fine annotations and handwriting recognition, fast tracking speed and a hard, rigid construction for years of reliable use.

## Software

Interwrite Software, included with every Interwrite Board purchase, is an extremely intuitive and easy to use education software package that includes thousands of images and resources to create interactive lessons. Interwrite Software can also be used to annotate, highlight or make notes over any computer program. You can even save, print or e-mail your lessons and all notations to students who are away from class. Interwrite

## Surface

The Interwrite Board's work surface produces minimal glare when used in Interactive mode with a projector, and easy clean-up when used with dry-erase markers in Whiteboard mode.

## Programmable Softkeys

Programmable softkeys simplify using the Interwrite Board by providing instant access to launching a favorite application, Internet site or file.

## Standard Features (US/Canada)

### Interactive Pens

Two interactive pens providing full mouse capability (left and right click, drag and drop, etc.). One pen contains an eraser and Expo® markers (red and blue) for dry-erase use.

### Pen Tray

The pen tray provides a convenient storage location for the

# Interwrite Pad

## Digitizing Technology

The Interwrite Pad utilizes patented electromagnetic digitizing technology which delivers high resolution (4,000 lines per inch), providing superior performance for fine annotations, manipulating of images/resources and handwriting recognition.

## Software

Interwrite Software, included with every Interwrite Pad purchase, is an extremely intuitive and easy to use education software package that includes thousands of images and resources to create interactive lessons. Interwrite Software can also be used to annotate, highlight or make notes over any computer program. You can even save, print or e-mail your lessons and all notations to students who are away from class.

## Bluetooth™ Hub

Available as either a PCMCIA card or a USB dongle, the Bluetooth Hub is an antenna that connects to your computer and provides wireless connectivity between the computer and the Interwrite Pad.

## Interactive Pen

An interactive pen provides full mouse capability (left and right click, drag and drop, etc.) when using the Interwrite Pad. The pen included with the Interwrite Pad is rechargeable and can also be used as an interactive pen with the Interwrite Board.

## Power Requirements

The Interwrite Pad contains a rechargeable NiMH battery. Under normal conditions, the battery life is 40 hours of continuous use. A power supply with a 10' cord is included for recharging.

interactive pens.

### Wall Mount Bracket

The wall mount bracket provides support when hanging the Interwrite Board on a wall.

### Power Supply

A power supply with a 10' cord is included. The power supply output is rated at 9V @ 1A.

## Optional Accessories

### Floor Stand

A sturdy, easily adjustable floor stand on casters provides a convenient means to move the Interwrite Board from room to room.

### Bluetooth Hub

Available as either a PCMCIA card or a USB dongle, the Bluetooth Hub is an antenna that connects to your PC and provides wireless connectivity between your computer and the Interwrite Board

### Interactive Pens/Pen Chargers

Additional interactive pens are available to provide full mouse capability (left and right click, drag and drop, etc.) when using the Interwrite Board. A new pen charger is available that mounts to the side of the Interwrite Board and allows users to charge 2 battery-free interactive pens.

**Price – Retail \$1,500 Adventist**  
**School Price = \$799**

## Software

Interwrite Software is the most intuitive and easy to use interactive whiteboard software for the classroom. Using Interwrite Software with the Interwrite Board, or Interwrite Pad you can bring lessons to life by making notes on the screen, highlighting important information, accessing websites, and interacting with lesson materials.
